

Energy Modular | 7997 on Nexus® Modular

The Paradigm Shift Collection features 6 distinct modular carpets. Each is designed to offer endless possibilities and feature our new Encore RE yarn. Encore RE yarns are made from various yarn colors and dye levels and may change with every production run. This may result in the sample material having different accent colors than the production material. Since no two tiles feature the same Encore RE yarns, dye lot merges are obsolete. The multitude of yarn colors, in combination with the neutral background allows the tiles from one production run to easily merge with tiles from another production run. The inherent colorway flexibility allows for easy modular replacement and thus no need for matching dye lots.
