From our establishment in 1957, we have become one of the oldest exclusive manufacturers of commercial flooring in the United States. As one of the largest privately held mills, our FAMILY-OWNERSHIP provides a heritage of proven performance and expansive industry knowledge. Most importantly, our focus has always been on people... ensuring them that our products deliver the highest levels of BEAUTY, PERFORMANCE and DEPENDABILITY.

INVISION kinetex
In our quest for creative inspiration, J+J explores the natural world, the vast canvas of a desert landscape carved by wind and water, stretched beneath a canopy of blue where the light of day gives way to a night full of stars.

Taking cues from the ingenuity of nature, J+J introduces Stellar, a new collection that evokes the colors, patterns and forms of earth and sky, shaped by weather, time and light.

At J+J, the pursuit of beauty is infinite.
milky way

The Milky Way pattern captures the beauty of multiple layers of stars throughout the deep night sky. The concentration of light comes and goes across the horizon as does the different tones and colors that glide through the 24” x 24” tiles of this organic pattern.
Milky Way Furnace Creek, monolithic. (page 10)

terra firma

From the exposed desert landscape carved by wind, water and time comes the inspiration for Terra Firma. This design, created to emulate the natural beauty of cracked earth, forms a balanced interpretation of the etched landscape with the use of sophisticated texture and patterning that effortlessly traverse throughout the 24" x 24" tiles.

Time Lapse elegantly reflects the vastness and serenity of millions of stars formed against the Death Valley night sky. The subtle, circular migration of stars in celestial movement begins to take shape as 24” x 24” tiles are paired together and the beauty of the organic motion appears.

Beyond the beauty of individual products, our flooring coordinates effortlessly with each other. This offering enables you to blend a range of designs with tonal simplicity to create palettes that reflect the demands of each unique space.
Coordinating Palette Corporate Programs

Green Circle - Zero Waste to Landfill Operations Certification
We are proudly certified as a Zero Waste to Landfill manufacturer by GreenCircle Certified, LLC., a prominent third-party certifier of environmental claims. We are the first commercial flooring manufacturer in the United States to achieve this landfill-free status and the first company in the industry to have its waste diversion efforts audited and verified by a recognized, third-party certifier.

Sustainability Progress Report
The J+J Flooring Group Sustainability Progress Report documents our journey toward increased environmental accountability and transparency. Each annual summary provides an update on sustainable advances in product development, resource reduction, certifications and progress toward the company’s 20/20 Vision. To view our most recent Sustainability Progress Report visit www.jjflooringgroup.com/sustainability.

Aquafinity®
This industrial water reclamation system uses a blend of filters and reverse osmosis to recover up to 50% of our dyehouse wastewater. The reuse of wastewater in carpet dyeing is an environmentally innovative process that J+J is proud to pioneer. In fact, we anticipate annually recycling 25 to 27 million gallons of dye house wastewater with the Aquafinity System.

R4®
The R4 (return, reuse, recycle, reduce) program is specifically designed for our customers across the country to facilitate the recycling of all J+J Flooring Group samples and architect folders that are no longer needed. Print your pre-paid UPS return shipping label anytime at jjflooringgroup.com.
The R4 program is available to all customers in the contiguous United States. For customers in Canada, please contact us at 800-241-4586 x8020 or email answers@jj-invision.com for details.

Beyond the beauty of individual products, our flooring coordinates effortlessly with each other. This offering enables you to blend a range of designs with tonal simplicity to create palettes that reflect the demands of each unique space.

**FIBER**

Encore® BCF Nylon with ColorLoc® Plus

Encore BCF nylon with ColorLoc Plus is manufactured to offer exceptional color, performance and appearance retention. Carpet using Encore BCF nylon with ColorLoc Plus – our patented stain resistant technology – is engineered to resist permanent staining and is backed by lifetime Performance Warranties for stain resistance, colorfastness, color transfer, water bleed, bleach resistance and wear.

**BACKINGS**

Nexus® Modular

Nexus modular products can be installed in a variety of ways and are performance engineered to be visually appealing. In addition, they are designed to accommodate your long-term flooring budget.

- Manufactured in ISO 9001 certified factories
- Contains pre-consumer recycled content and contribution to LED
- Recyclable through the J+J Flooring Group's R4 Carpet Recyclation Program

**ADHESIVES**

Commercial® ProTec® Mastic Adhesive

A high strength acrylic latex-based carpet adhesive specifically formulated for bonding modular PVC backed carpet to the floor. This premium adhesive is for use with all Nexus Modular Tile products. This adhesive is guaranteed for the life of the installation when used in accordance with the J+J Flooring Group Carpet Installation Handbook. Commercial® Premium Modular Adhesive is non-toxic, has ultra-low odor and is antimicrobial in the dry state.

**TECHNOLOGIES**

ProTec® Soil Resists

ProTec is a proprietary fluoroschemical technology that is applied and bonded to the pile fiber to impede soiling and to improve cleanability. It is standard on all J+J Flooring Group products. ProTec works similarly to the technology used in nonstick cookware by lowering the surface energy of the fibers which increases soil release properties. Very small soil particles cause carpet to appear dull. Thanks to ProTec, small soil particles are effectively removed by vacuuming or wet cleaning.

**OPTIONAL BACKINGS**

Nexus® Cushion

Nexus Cushion is a cushion backing system for modular products, offering outstanding performance and comfort underfoot.

**ALTERNATIVE ADHESIVES**

TileTabs®

TileTabs are high tack adhesive tabs that connect carpet tiles together, resulting in a continual layer that gently grips existing flooring. Escape typical trapping with TileTabs for a versatile, glue-free installation solution for modular carpet goods.

**ADDITIOINAL TECHNOLOGIES**

ProSept® Antimicrobial

ProSept is a unique, broad-spectrum technology applied to the carpet backing system to serve a dual function: to protect the carpet from both bacterial and fungal growth and to eliminate odors associated with mold and fungi.

Sentir® Advanced Odor Blocking Technology

J+J Flooring Group’s Sentir is a self-renewing treatment designed for the control or elimination of offensive odors associated with various indoor environments, and it is especially beneficial with odor-bearing spills.

Sentir is not a deodorant that masks offensive odors. It is a technology that absorbs and fragments the odor into component parts over a period of time, thus destroying the odor itself. Sentir is not decomposed by this action and is therefore ready to destroy the next odor molecule it encounters. The binding properties of Sentir provide resistance to multiple cleanings and trafficking, ensuring durability.
