INFUSION COLLECTION

# Blend Stir

## INSPIRATION

Just as the creation of fine wines and spirits' complex character and flavor are enhanced through the dynamic aging interaction of wood and environment, so is the inspiration of the Infusion Collection – two LVT styles imparted with a melding of unique character and craftsmanship.

**Blend** adds a striking aesthetic with its rich, robust pattern that emulates seasoned oaks, amber and walnut. The subtle, light-profile of **Stir** offers refined, airy maple and birch patterns for a modern flair. The Infusion Collection offers a versatile backdrop in nine earthy colorways offered in 7" x 48" planks.

#### COORDINATES

Beyond the beauty of individual products, our flooring coordinates effortlessly across all of our product platforms - modular carpet tile, broadloom, LVT and Kinetex textile composite flooring. This offering enables you to blend a range of designs with tonal simplicity to create palettes that reflect the demands of each unique space.

J+J Flooring's domestically made luxury vinyl tile uses digital print technology to create high-resolution designs directly on a high-density rigid core. The creative process begins with scanning unique wood species, which allows for unlimited design possibilities and minimal plank repeat for a more authentic wood look.

Compared to traditional film products, digital print technology produces design with 5x more color clarity. Using digital emboss technology, a structure is built up on the surface of the board, creating an exact texture match to the design.

Evertuff Clearcoat® provides built-in protection using a UV coating in place of a traditional wear layer, leading to enhanced abrasion properties.

- 1 Protective top coat and matte finish for a low gloss visual that hides surface imperfections
- 2 Lacquer layer and texture build up for unhindered color clarity and realistic wood texture (EIR)
- 3 Digitally printed decor allowing for high resolution image and enhanced plank repeats
- 4 Primer base allows for a perfect canvas to start the printing process
- 5 High density rigid core for unmatched indentation properties perfect for high traffic areas
- 6 Attached pad for ease of installation and enhanced sound absorption

TECHNOLOGIES

## PUREGRAIN HIGH-DEF

With high-resolution digital printing, the possibilities are endless! The increased dots per inch (DPI) leads us to our high-def color clarity allowing us to create industry-disrupting products.

**Evertuff Clearcoat Technology®**

Our Evertuff Clearcoat® provides ultimate protection against everyday scuffs and scratches.

**One2Click® locking system (angle/angle) for superior joint strength**

FEATURES & BENEFITS

- Proudly made in the USA
- Realistic texture
- Waterproof
- Enhanced bevel
- Noise reduction
- Fast installation
- Installs over most existing floor
- Superior scratch resistance
- High indentation resistance
- High dimensional stability

STYLE	blend V5051 stir V5060
THICKNESS	4+1 (5mm overall)
UNDERLAYMENT	1.0mm XPO attached
CONSTRUCTION	high density rigid core direct digital print & emboss SPC
WEAR LAYER	equivalent to 20 mil
FINISH / COATING	Evertuff Clearcoat®
NOMINAL DIMENSIONS (INCHES)	7" x 48"
PATTERN REPEAT	35 unique planks
EDGE	One2Click® with natural bevel
SQUARE FEET PER CARTON	22.17
PRODUCT WARRANTY	10 year commercial warranty and lifetime residential warranty
MODULAR INSTALLATION METHODS	 1/2 drop  ashlar

©2025 J+J Flooring Group, LLC - This unique design is protected under the U.S. Copyright Act of 1976. Any unauthorized copying or duplication of this design constitutes copyright infringement in violation of federal law.

Due to the unique visual characteristics of modular carpets, pattern repeats and pattern run-off seams may appear more noticeable than in broadloom carpets. Such visual characteristics do not constitute a manufacturing defect, and as such, should be considered when selecting modular carpet and its installation.

These photographs are representations of the installation for this modular product. Your modular installation may look different than these photos depending upon individual tile placement, lighting, and overall space layout, including furnishings. Final tile placement and the resulting visual is thus the customer's, and not J+J Flooring's responsibility.
