

Frequently Asked Questions

What Kinetex styles are available for wall base?

The solid/near solid products - Accelerate, Propel and Pop.

What is the minimum order?

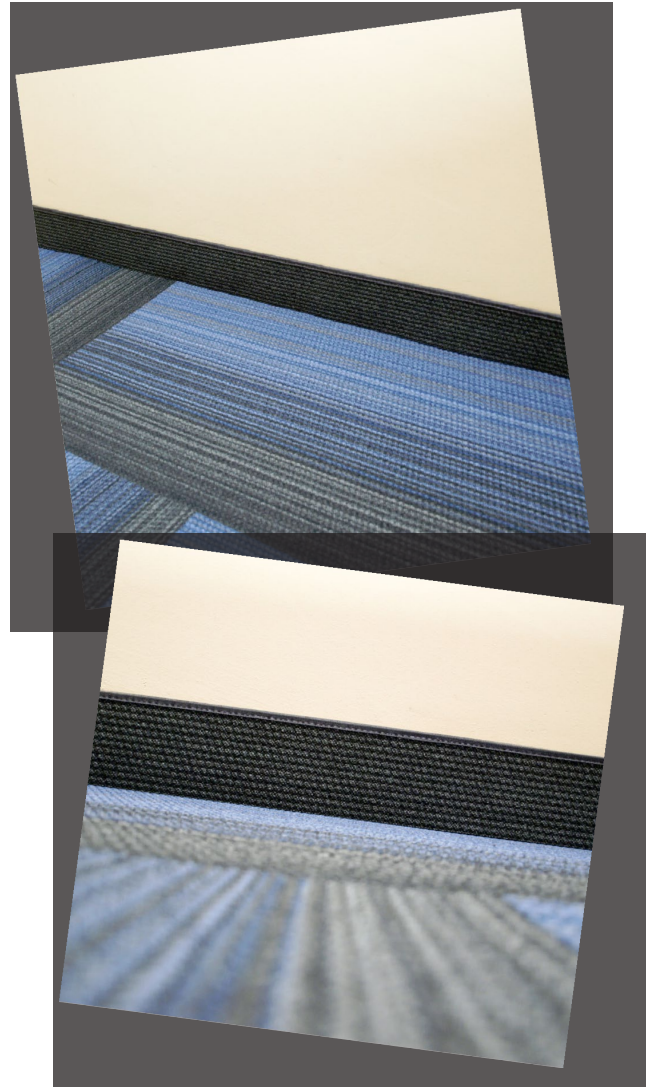

120 lineal feet

What is the installation method?

Kinetex wall base is a peel and stick installation. There are 3 adhesive strips on the back of the product, remove paper and adhere to the wall. See Kinetex Wall Base Installation instructions for additional information. There is no wet adhesive option for Kinetex wall base.

How is the product packaged and shipped?

The wall base will be manufactured in a 4 inch height, capped with a bound edge, rolled into a coil, then packaged into a box for shipping. The size of the coil is dependent on the size of the order.

What is the warranty?

J+J Flooring extends limited lifetime warranties covering Kinetex Wall Base. These warranties protect the original purchaser against performance deficiencies in specific categories. See Kinetex Wall Base Warranty for additional information.

What is the price?

Every wall base order is unique, therefore every potential request must be directed to Linda Corn in Account Management for pricing.
