

NEOCON 2019 lookbook

FABRICATIONS COLLECTION

Inspired by the beauty in textures, patterns and colors of fabrics, The Fabrications Collection is comprised of three styles. Stria, a 12" x 48" demi plank, has a linear application of color with space-dye striations interrupting the continual lines, giving it a unique pattern and texture. Twill Weave and Fractured Plaid, both 24" x 24" modular tiles, are abstract translations of patterns with a soft tip-shear, giving them a rich high end feel to any space.

FABRICATIONS COLLECTION | stria | 12" x 48" demi plank

FABRICATIONS COLLECTION | fractured plaid | 24" x 24" modular tile

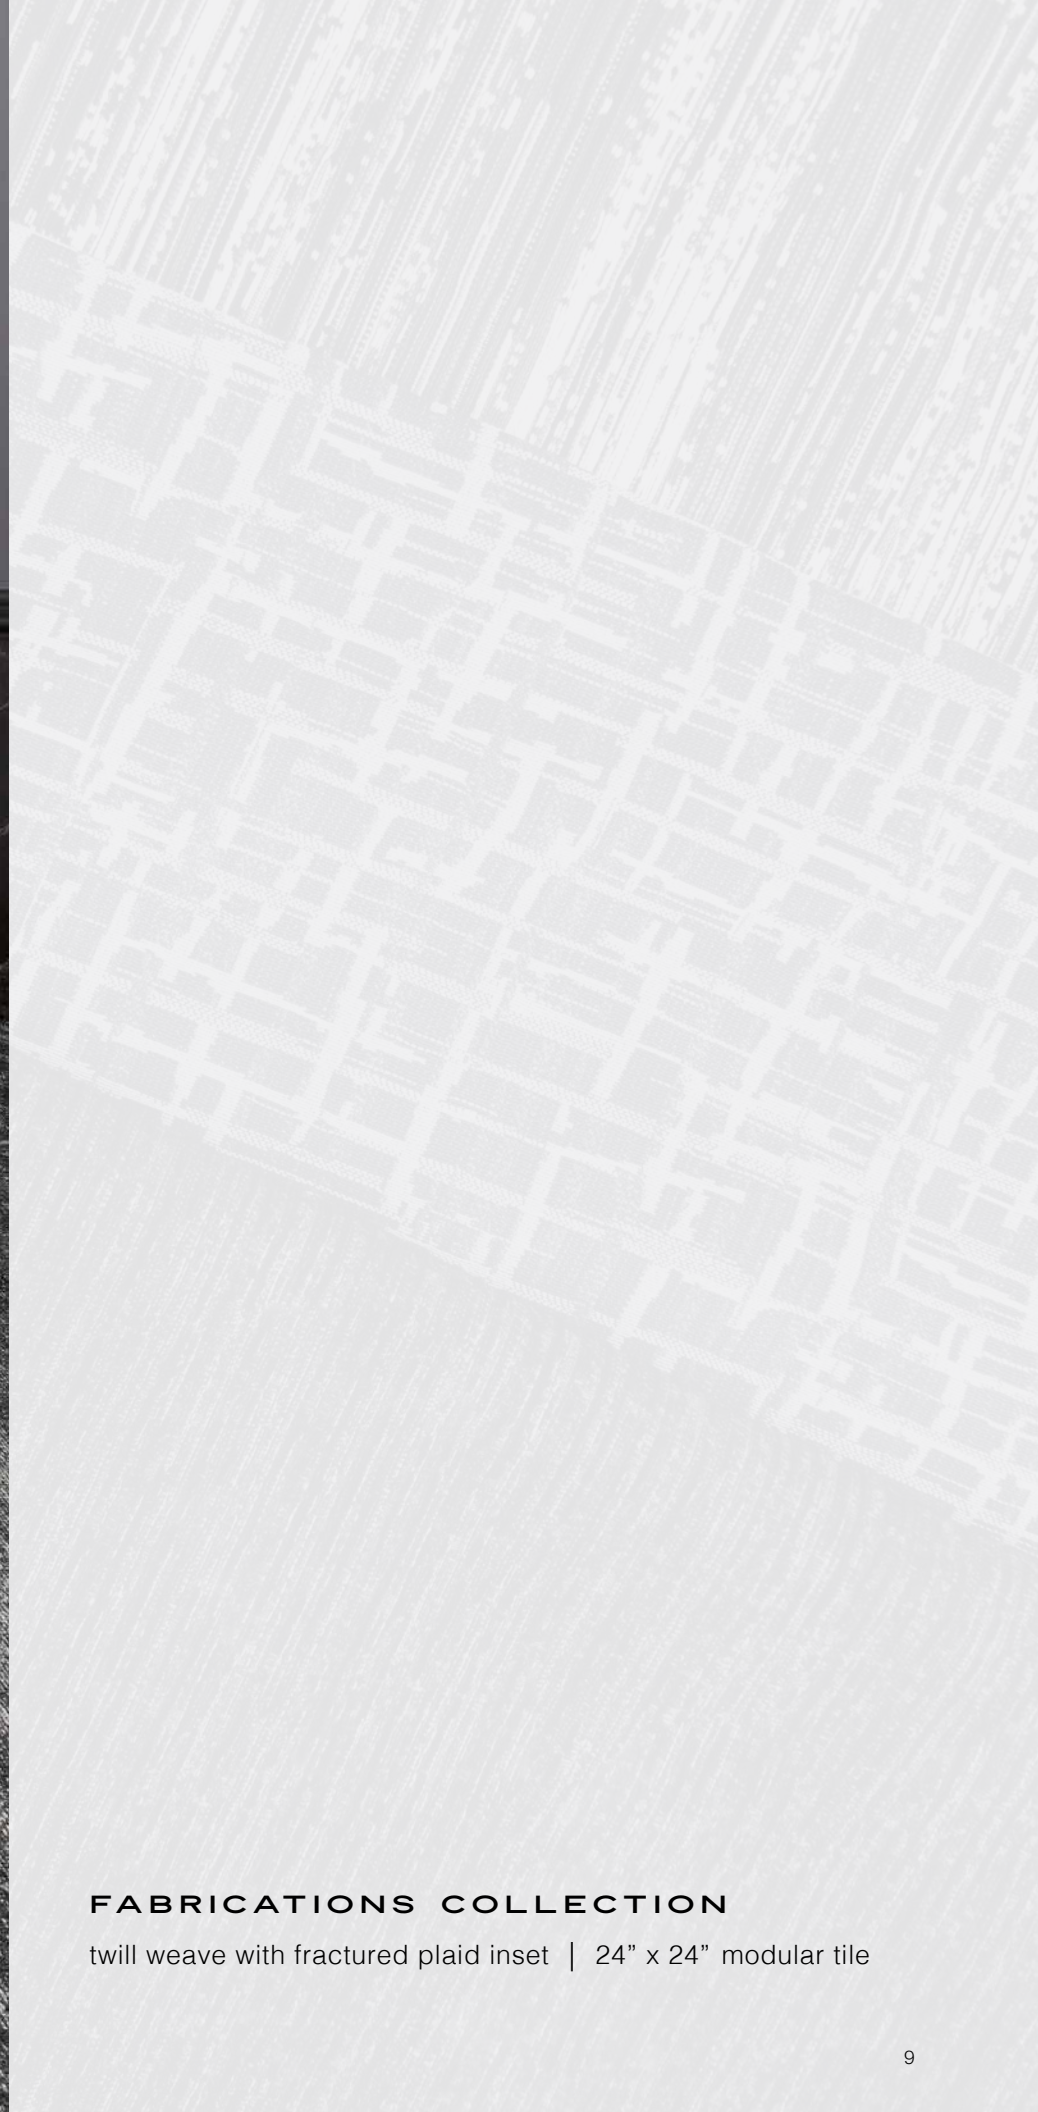

FABRICATIONS COLLECTION | twill weave | 24" x 24" modular tile

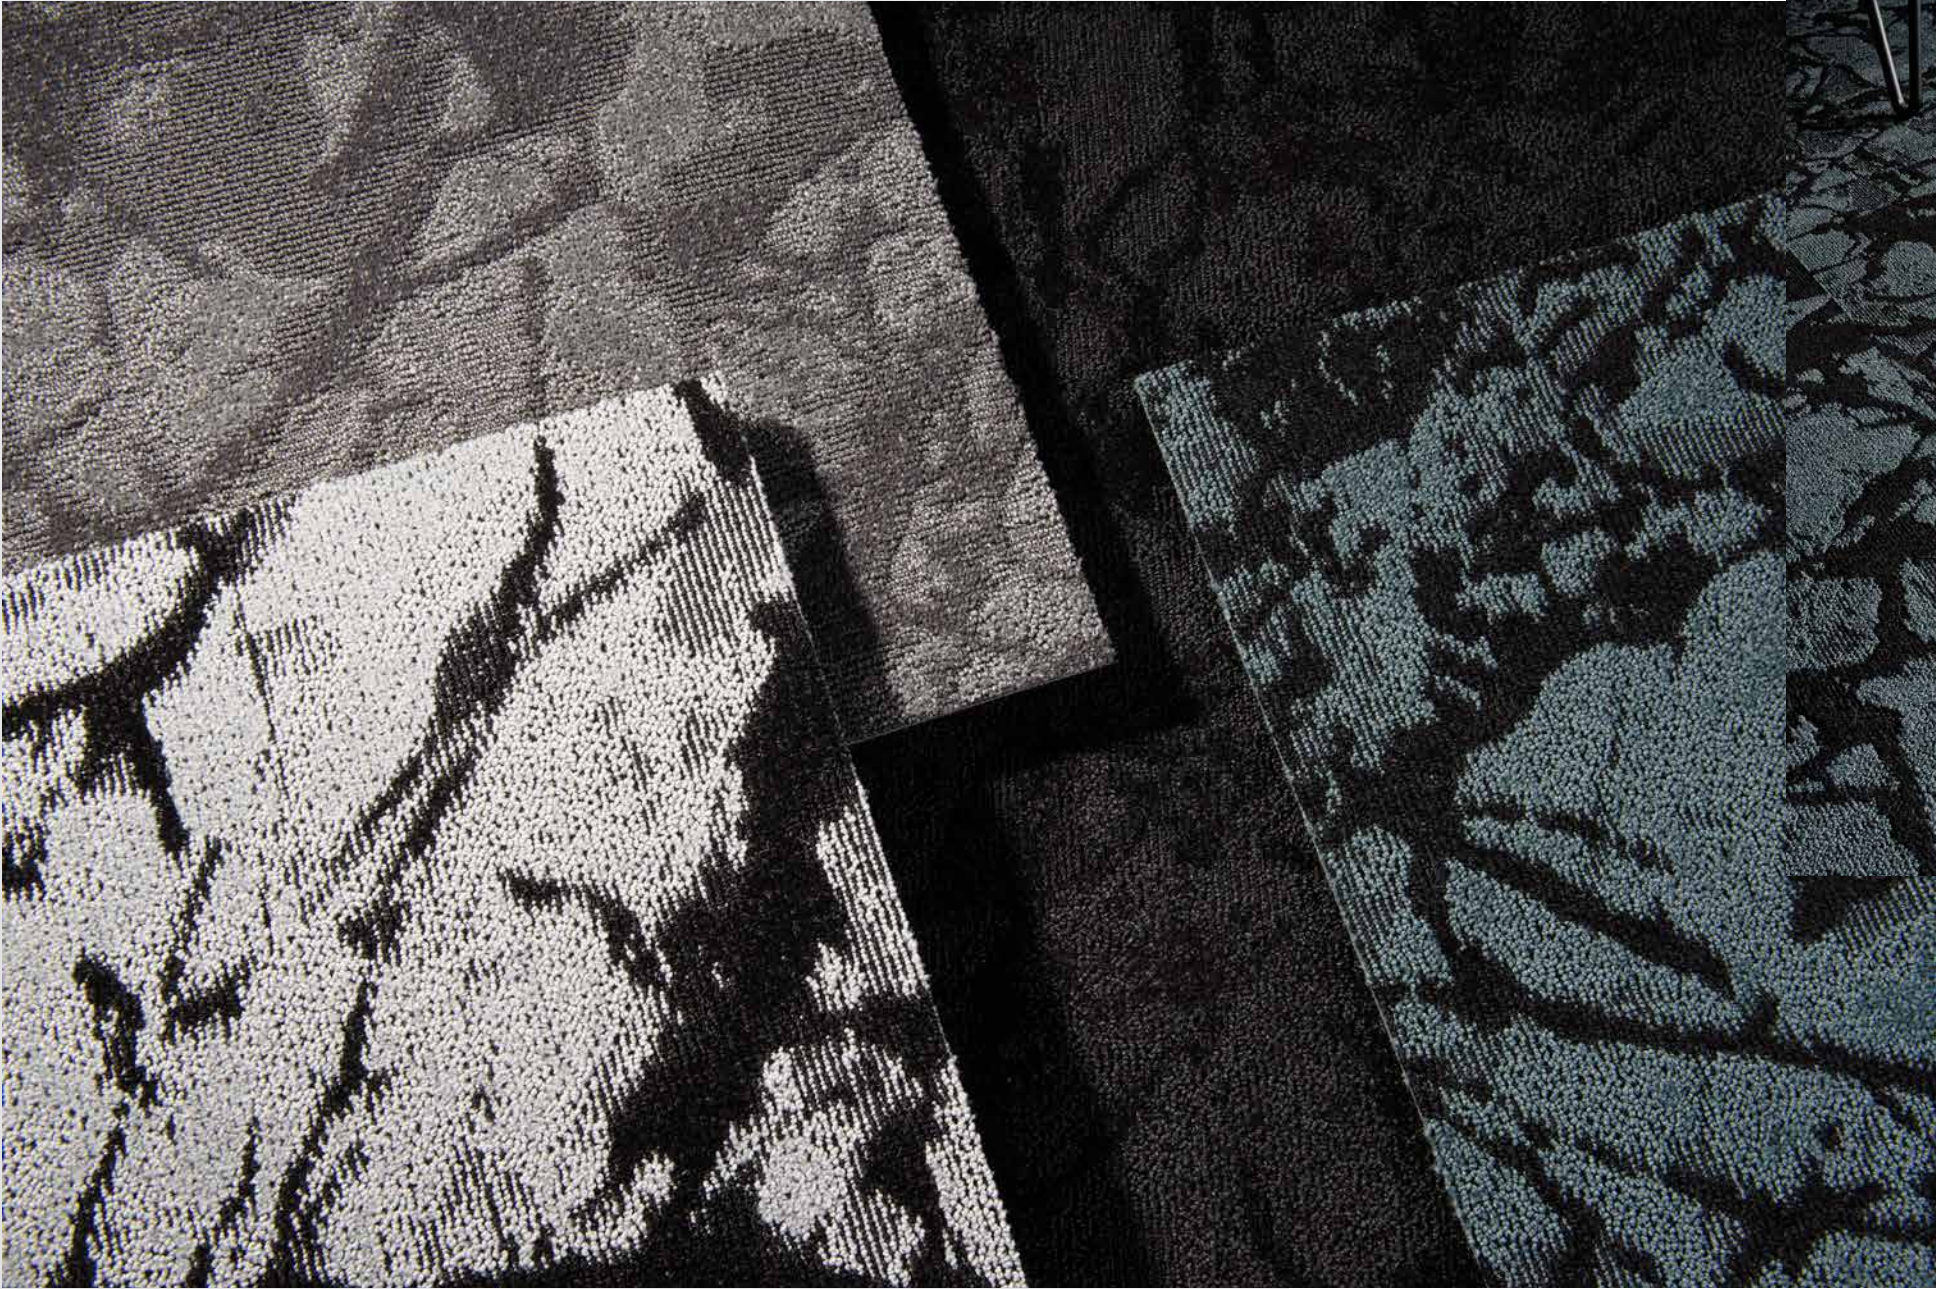

**FABRICATIONS COLLECTION**

twill weave with fractured plaid inset | 24" x 24" modular tile

FIRE & ICE | 24" x 24" modular tile

The contrast of fire on ice - element on element - highlights each separation within the fractured frosted landscape. The fire does not overwhelm the effect on the ice but dramatically transforms the scope- which takes on an epic appeal. Fire & Ice is available in 24" x 24" modular tile.

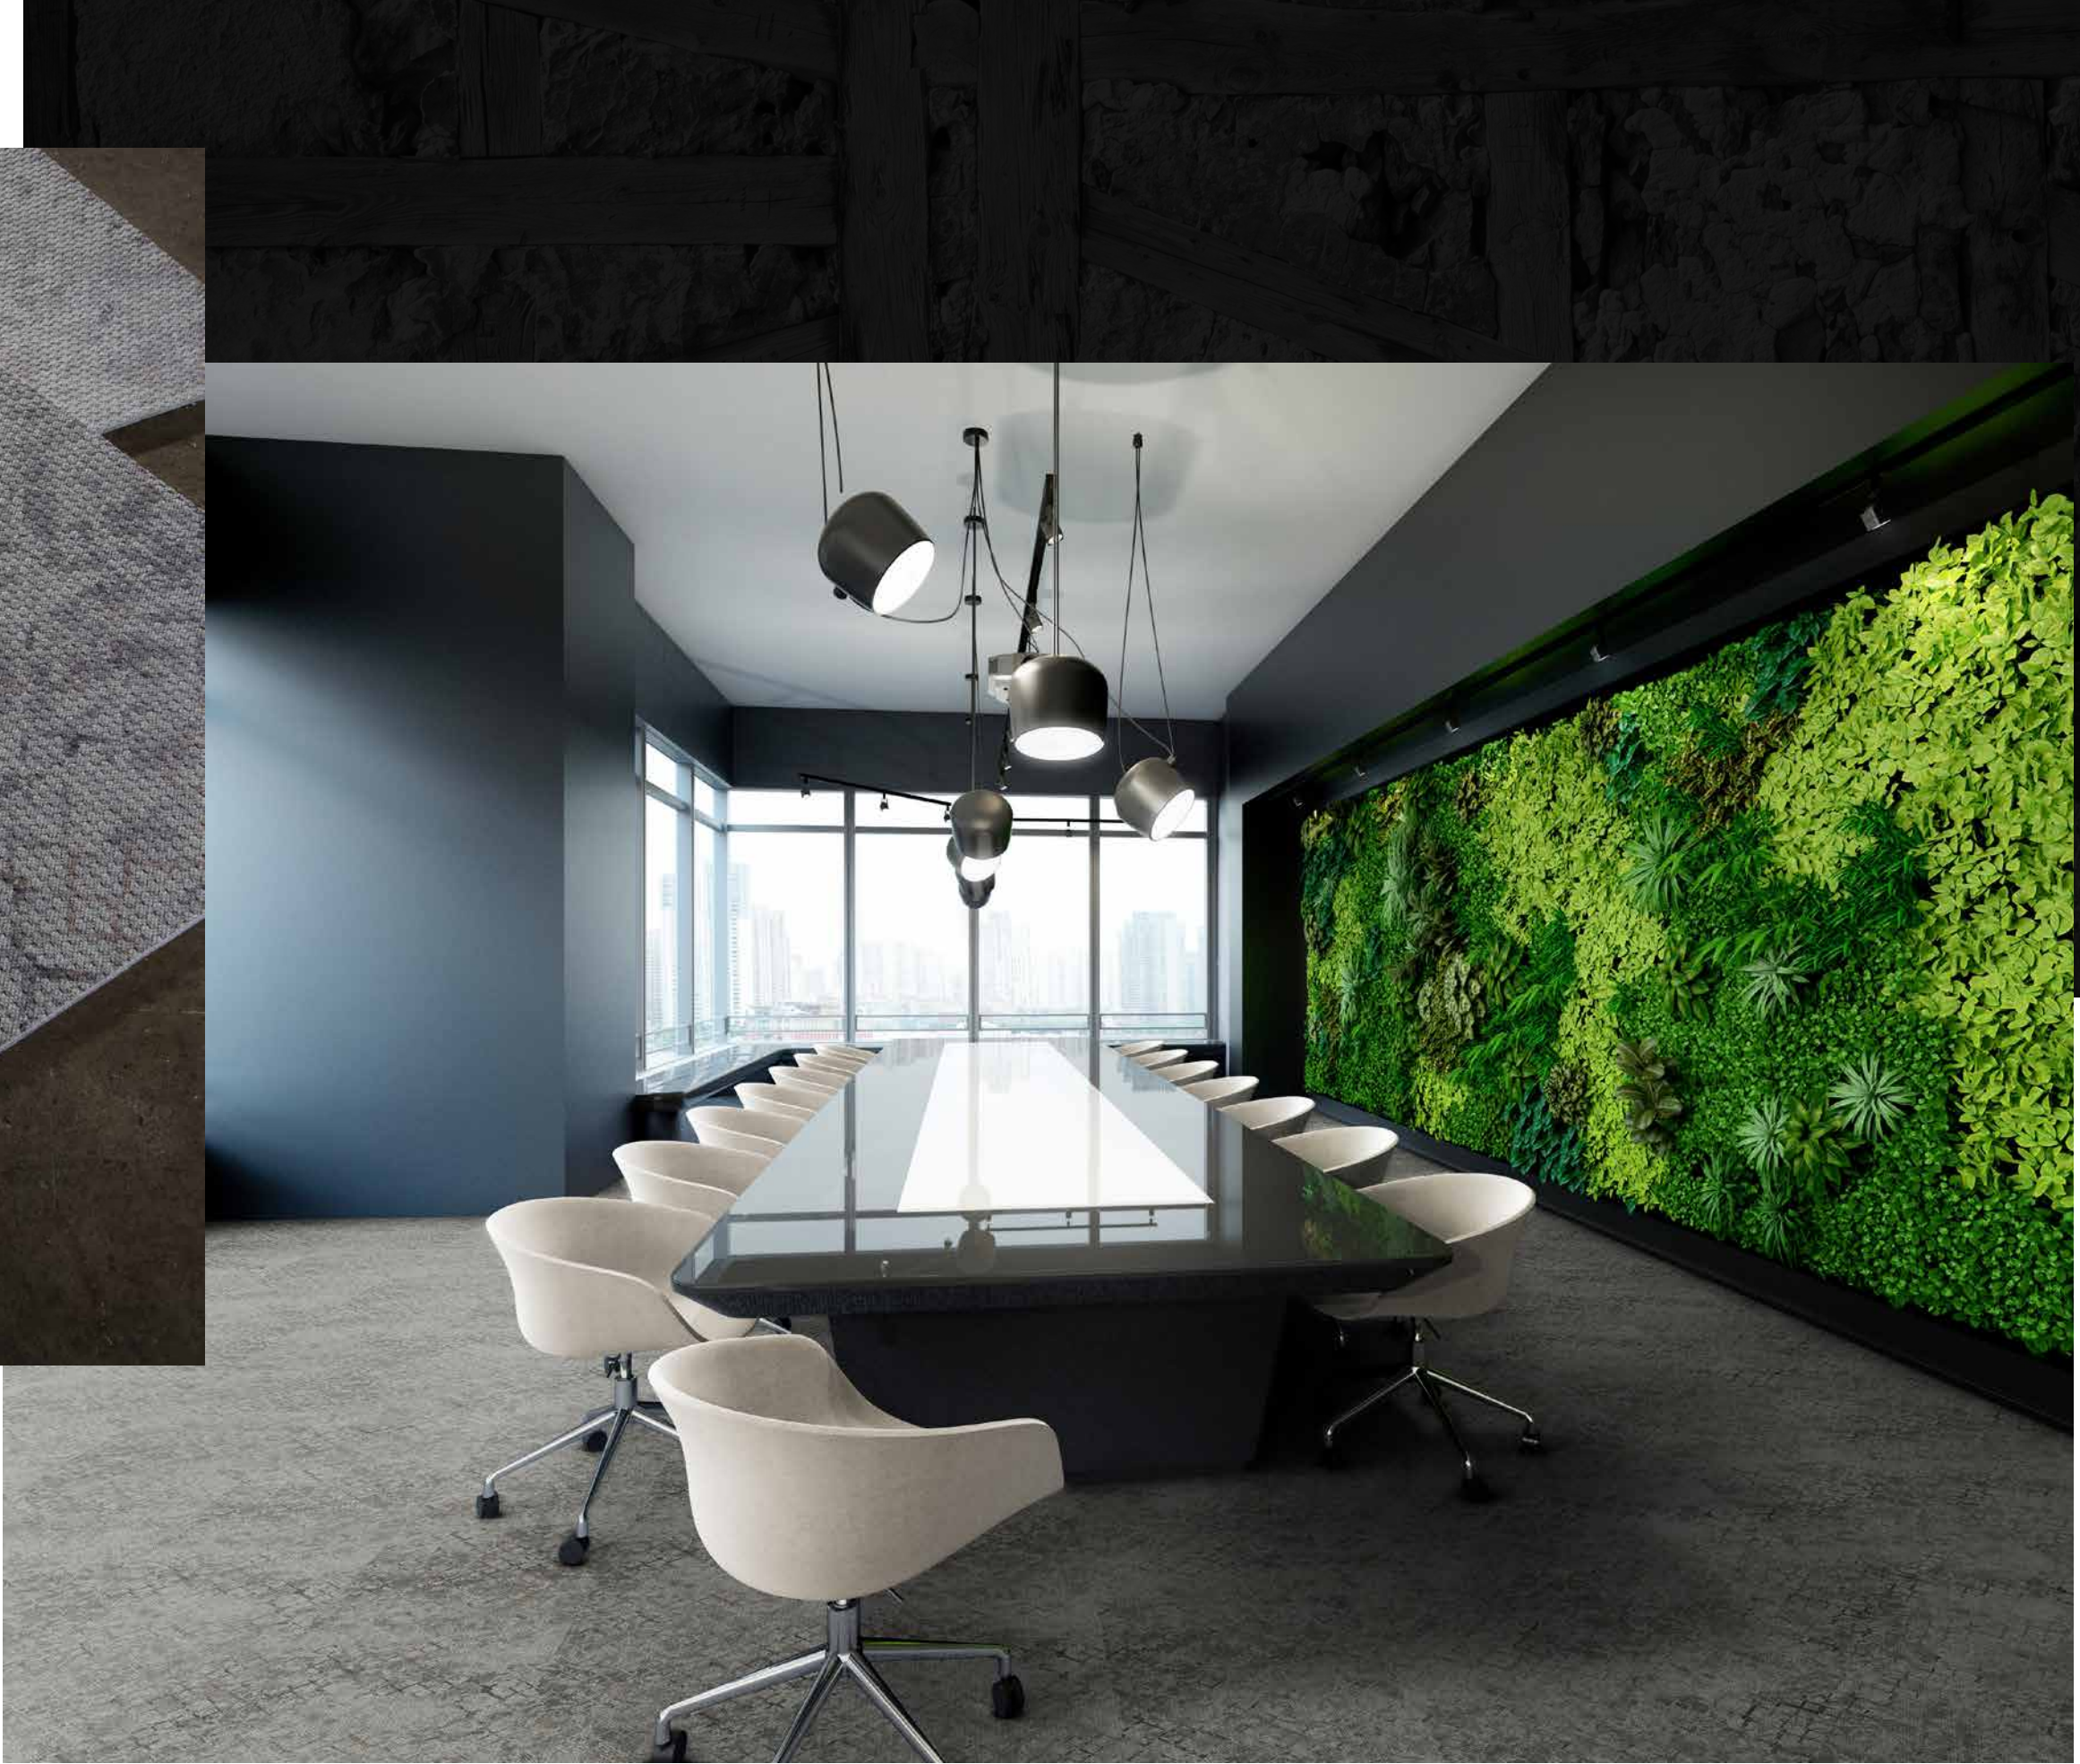

**BROOKSTONE** | 18" x 36" plank | kinetex

A rustic, old-world European aspect is created by layering patterns of artfully distressed textures with a subtle, weathered trellis motif. The organic and graphic patterns play off each other, showcasing a modern color palette that is a definitive backdrop for modern interiors.

**NETWORK** | 24" x 24" modular tile and 12" x 48" plank | kinetex

Inspired by emerging digital-inspired artistic trends, Network brings a sophisticated, yet on-trend modern design element to any commercial space. Reimagining “the glitch,” the visual of a pixelated or off-register image which has firmly become part of modern design culture, vertical and horizontal broken lines were applied to achieve a style that celebrates distress, deconstruction, and the eerie beauty of imperfection.

**FLOORING GROUP**

A DIVISION OF ENGINEERED FLOORS
