INSPIRATION

Finding the balance between polished and natural aesthetics, Signature II brings the elements of both, interpreting spaces with quiet, understated woodgrain finishes. The warm, rich organic pattern and color naturally pair with traditional interiors, as well as providing a beautiful contrast for smart, modern environments.

J+J Flooring LVT features a standard

enhancement of ZPT (Zinc Protective Technology) antimicrobial. Dispersed into the product during the manufacturing process, ZPT antimicrobial prevents unpleasant odors, degradation and discoloration as a result of microbial contamination. ZPT contains Zinc Pyrithione as the main ingredient with no harmful additives. Zinc Pyrithione is a common dandruff shampoo ingredient and proven to be safe in both household and commercial use. ZPT antimicrobial technology guarantees your J+J Flooring LVT will provide a beautiful, long lasting and safe floor covering for years to come.

Due to the unique visual characteristics of modular carpets, pattern repeats and pattern run-off seams may appear more noticeable than in broadloom carpets. Such visual characteristics do not constitute a manufacturing defect, and as such, should be considered when selecting modular carpet and its installation.

These photographs are representations of the installation for this modular product. Your modular installation may look different than these photos depending upon individual tile placement, lighting, and overall space layout, including furnishings. Final tile placement and the resulting visual is thus the customer’s, and not J+J Flooring’s responsibility.
