INSPIRATION

The rhythmic motion of the weaver's hands as they intertwine the warp and weft of the loom results in an inspired creation – a fusion of textile artistry and technical skill.

Reed brings an asymmetrical balance to structured patterns by blending and layering softened geometrics. **Quill** is a hazy abstract tapestry of dusky neutrals that weave in slivers of richer color. **Tabby**'s bold, fragmented geometric has an overlay of irregular neutral colorations rendering an organic, contemporary design.

Each of the three 18x36 patterns in The Warp & Weft Collection have 10 coordinating colorways to mix and match.
