Credits

Learning Objectives

Upon completing the module, participants will be able to:

1. Understand the relationship between flooring durability and maintainability and the true cost of ownership
2. Explain how flooring contributes to health and safety.
3. Understand ways that flooring can prevent injuries to caregivers and patients and the relationship between comfort and mobility.
4. Identify ways that flooring acoustics can affect caregiver and patient outcomes.
5. Understand how the above affects the performance of the hospital.

Healthcare + Flooring is AIA, EDAC and IDCEC accredited.
